SERIES 10 DAVITS WITH S10 DYNEEMA RETRO KIT

S10 Dyneema Retro Kit

Cooney Marine have introduced a new update to the Simpson Davit range.

The new S10 Retro Fit Kit for the Series 8 has now been launched. Designed and developed by the manufacturer, the Retro Fit Gearbox and running kit allow Series 8 Davits to run Dyneema rope safely.

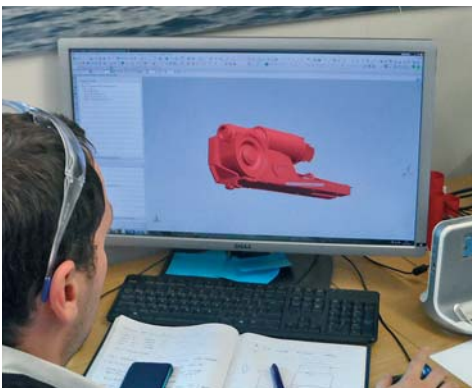

Using the existing chassis and replacing key components the Retro Kit enables a new smooth operating system that Dyneema rope offers.

Kit includes:

- Control box
- Motors
- Gearbox
- Sheaves
- Sheave carriers
- Ropes
- Magnets
- Magnet holders
- Weights
- New wiring
- T bar and rope guide.

The Retro Kit will need to be fitted by a Marine Engineer or alternatively the davits can be sent back to Cooney Marine for fitting.
